UNIVERSAL ORTHOSYSTEMS

SUPREME SURGEON SERVICE

Leveraging vast experience, Universal Orthosystems has consolidated itself among the top names of the orthopedic industry. Since 1993, we aim to develop, produce & market impeccable product range in orthopedic implants & instruments.

In 90's, Universal Orthosystems created it's strong foothold in Orthopedic market by pioneering to develop first indigenous MND segmental Spinal system & Interlocking Nailing systems for Tibia, Femur & Humerus nails.

At Universal Orthosystems, innovation & expansion has always been an on-going process. We have separate R & D divisions in support with the strong user groups who conduct many educational programs & CMEs.

We have 30,000 square feet of the State of the Art manufacturing facility.

Universal Orthosystems covers wide range of products in U-Spine, U-Trauma (Conventional), U-Trauma (AcE"PLCP System"), U-Arthroscopy & U-PaeD (in Stainless Steel & Titanium) divisions. The divisions offer a worldwide range of orthopedic products like wide range of interlocking nails, Bone Plates, Bone screws, Total Spinal System, Arthroscopy Implants, AMP, Bipolar and many more from the highest medical grade steel and titanium alloys which conform to international norms and standards.

We are the only company with entire range of Internal Fixation for Pediatric Orthopedic Surgeries.

Universal Orthosystems has been awarded with CE (Certificate as per European Standards), ISO 9001:2000 and ISO 13485:2003, Indian FDA (Food & drug administration, India) and European Free Sales Certificate for our innovative and quality products.
